"The function of education is to teach one to think intensively and to think critically- Intelligence plus character - that is the goal of true education".

- Martin Luther King, Jr.

The realm of education is the art of cultivating the moral, emotional, physical, psychological and spiritual dimensions of the developing child. Holistic education aims at creating a sustainable, just, and peaceful society in harmony with the Earth and its life. It's primarily based on dynamic education and it cultivates a critical awareness of the many contexts of learners' lives. We work in unison to create holistic thinking which involves contextual, intuitive, creative, and physical ways of knowing the many facades of education.

To pay tribute to teaching fraternity, September 5 is widely celebrated as Teachers' Day, to revere teachers for their noble contribution being rendered to the society. It's a Red letter Day as the whole nation commemorates the birthday of a great teacher Dr. Sarvapalli Radhakrishnan, who was a staunch believer of education, and was a well-known diplomat, scholar, the President of India and above all, a teacher. In the year 1965, some of the prominent students of late Dr S. Radhakrishnan organized a gathering to pay obeisance to that Great Teacher of repute. He expressed his deep reservation regarding his birth anniversary celebration, and emphasized that his birth anniversary should be celebrated as 'Teachers Day', by paying homage to other Great Teachers of India.

We at DPS gently propel the 'slow learners' to climb the steep learning curve, which engages the 'bright minds' to delve deeper into concepts and thereby meet their needs to be ahead of others. Our teachers face a formidable challenge -- how to teach each child to his or her optimum potential. The journey of education would continue to nurture and hone the learning abilities of our enthusiastic Dipsite's to attain global citizens to resolve gamut of issues that befall their path of advancement.

*With regards

GLOBALLY IMPORTANT DAYS OF THE MONTH

It is said that nothing is there to compare from the teaching profession. It is the noblest profession in the world. 5th of September has been dedicated to the teaching profession by celebrating this day as teachers day all through the India. It is celebrated every year to commemorate the birth anniversary of earlier India President, Dr. Sarvapalli Radhakrishnan as well as pay honour to the teachers. The birth anniversary day of our earlier president has been dedicated to highlight the nobility of the teaching profession as well as contributions of our teachers in the society and country development.

Heart Day is part of an international campaign to spread awareness about heart disease and stroke prevention. This is the perfect day to quit smoking, get exercising and start eating healthy – all in the name of keeping your ticker in good working order, and improving the health and well-being of people the world over.

The World Heart Federation have found that heart disease and strokes are the world's leading cause of death, killing 17.1 million people every year – that's more than victims of cancer, HIV and AIDS and malaria.

Overeating, lack of exercise, unhealthy diets and high blood pressure, cholesterol and glucose levels are all factors which can trigger heart disease and threaten our own lives, and those of loved ones. **Heart Day** was set up to drive home the message that heart problems can be prevented.

The aim is to improve health globally by encouraging people to make lifestyle changes and promoting education internationally about ways to be good to your heart. This lesson is becoming increasingly relevant as reports of obesity, poor diet and physical inactivity in children and young people become more and more common.
