## GLOBALLY IMPORTANT DAYS OF THE MONTH

The realm of education is the art of cultivating the moral, emotional, physical, psychological and spiritual dimensions of the developing child. Holistic education aims at creating a sustainable, just, and peaceful society in harmony with the Earth and its life. It's primarily based on dynamic education and it cultivates a critical awareness of the many contexts of learners' lives. We work in unison to create holistic thinking which involves contextual, intuitive, creative, and physical ways of knowing the many facades of education.

To pay tribute to teaching fraternity, September 5 is widely celebrated as Teachers' Day, to revere teachers for their noble contribution being rendered to the society. It's a Red letter Day as the whole nation commemorates the birthday of a great teacher Dr. Sarvapalli Radhakrishnan, who was a staunch believer of education, and was a well-known diplomat, scholar, the President of India and above all, a teacher. In the year 1965, some of the prominent students of late Dr S. Radhakrishnan organized a gathering to pay obeisance to that Great Teacher of repute. He expressed his deep reservation regarding his birth anniversary celebration, and emphasized that his birth anniversary should be celebrated as 'Teachers Day', by paying homage to other Great Teachers of India. We at DPS gently propel the 'slow learners' to climb the steep learning curve, which engages the 'bright minds' to delve deeper into concepts and thereby meet their needs to be ahead of others. Our teachers face a formidable challenge -- how to teach each child to his or her optimum potential. The journey of education would continue to nurture and hone the learning abilities of our enthusiastic Dipsite's to attain global citizens to resolve gamut of issues that befall their path of advancement.
