Dear Parents

"I cannot teach anybody anything, I can only make them think"

- Socrates.

Our school's indisputable interest ensures pupil's emotional growth along with intellectual excellence. This emboldens them to progress their self-esteem, self-awareness, dignity, morale and self-confidence. Imparting ideas, scrutinising situations and expressing them confidently are fundamental skills which are honed in DPS, through motivational and experiential learning.

Unprejudiced, a diverse orientation, individuality, a global outlook, intellects and aptitudes - these are the finest qualities needed today. As we live in 21st century, our school wishes to set an approach to learning that incorporates inquiry, research, analytical thinking and an ethical approach that becomes a lifetime habit. The students are helped to focus on confidence building, while nurturing a strong sense of social and environmental responsibility through academic and co-curricular activities.

Our greatest struggles always form our greatest strength.

As the results of Term Assessments are announced, it's high-time to work on flaws and rectify them. The next attempt is not very far away. So, students should analyse their areas of improvement and work towards it. 'Passion inspires action'. Instinct accelerates you to work on your dreams. One simple thing that we can do immediately is to organize and put hard- work in motion.

Honest evaluations of previous actions and examining what is important in terms of improvement will provide an exciting opportunity to re-evaluate and reframe our schedule to create a new approach in learning. This approach will assure us to gain strength, resilience and passion.

Principal

RHYME AND FUN

*Little brown seeds so small and round,
Are sleeping quietly underground.*

Down come the raindrops

Sprinkle sprinkle sprinkle

Out comes the rainbow,

Twinkle twinkle twinkle

Little brown seeds way down below,

Up through the earth they grow,grow,grow

Little green leaves come one by one.

They hold up their heads and look at the sun.
